Frontend: React.js, React Native, Next.js, Redux, TypeScript, JavaScript, TailwindCSS, VTEX
Mobile: React Native Expo, RevenueCat, Bluetooth APIs
Backend/Infra: GraphQL, Firebase, SQL, WatermelonDB
Tools & DevOps: Git, GitHub, GitLab, Figma, Elasticsearch, Agile/Scrum

Professional Summary

Creative and detail-oriented Senior Frontend Developer with 5+ years of experience building responsive web and mobile applications. Proven ability to lead projects end-to-end, architect scalable solutions, and collaborate across distributed teams. Strong command of modern JavaScript frameworks, like React, NextJs and React Native. Currently working full-time as an independent contractor, delivering high-quality, production-grade applications to global clients.

Experience

Akivna Technologies – Remote

Software Developer (Full-Time: Sep 2022 – Oct 2024)
Independent Contractor (Nov 2024 – Present)
- Led end-to-end development on major e-commerce projects using Next.js and GraphQL.
- Translated business requirements into robust frontend architecture and reusable components.
- Made immediate contributions within 10 days of onboarding, including high-impact UI modules.
- Self-learned and applied Next.js within 2 days to meet fast-moving delivery timelines.
- Used TailwindCSS extensively for responsive and scalable UI development.
Technologies: Next.js, TypeScript, GraphQL, React Native, Redux, SQL, WatermelonDB, JavaScript, Git/GitLab, TailwindCSS

goHarness (Publicis Sapient) – Remote

Associate Experience Technology L2 (Oct 2021 – Sep 2022)
- Developed B2B and B2C e-commerce platforms using React and VTEX for 3 major brands.
- Built and presented 5+ frontend POCs for enterprise clients, accelerating client acquisition.
- Followed Agile/Scrum methodologies to ensure timely and budget-friendly deliveries.
Technologies: React.js, VTEX, Redux, JavaScript, Sass, Git/GitHub, Figma

goHarness – Chandigarh

Lead Mentor & Full-Stack Developer (May 2019 – Sep 2021)

- Delivered and maintained 5+ web/mobile projects for international clients in Canada, USA, and Dubai.
- Integrated Elasticsearch for blazing-fast search over 10,000+ records.
- Managed and mentored 3–6 member developer teams to ensure timely delivery and client satisfaction.

Technologies: React.js, React Native, Firebase, Redux, JavaScript, Magento, Git/GitHub

goHarness (Xceedance) – Gurugram / Remote

Lead Full-Stack Trainer (Jan–Mar 2020, Jan–Mar 2021)

- Delivered 2 full-stack bootcamps (60 days each) with capstone projects and 1-on-1 mentoring.
- Trained 20+ in-office and 40+ remote employees through interactive, hands-on workshops.

Independent Contractor Projects

PulseFit

React Native Expo | AWS | RevenueCat

- Built a cross-platform fitness app featuring training plans, workouts, diet plans, hydration tracking, and favourites.
- Integrated in-app subscription using RevenueCat and AWS infrastructure.
- App launching soon on the App Store and Play Store.

HudHudHub – Qatar (Deployed)

React Native Expo | Groceries App

- Designed and developed an end-to-end e-commerce app for grocery delivery.
- Features include cart, order management, favourites, product catalog, and secure checkout.
